# Drop-In Dental Clinic

for Children Ages 0 - 3

**When: Monday, September 22**

**Time: 10am - 12pm and 1pm - 4 pm**

**\*Fluoride Varnish Application\***

Fluoride varnish helps to prevent tooth decay (cavities) in young children and helps strengthen teeth. If your child already has tooth decay, fluoride varnish helps stop or slow down the progress of tooth decay until your child is able to have treatment in a dental office or until their first teeth naturally fall out. Application is painless and quick!

Baby teeth are important for children to learn how to eat, speak and be healthy. Stop in to protect your child's teeth!
